WEC Energy Group Internship Students Opportunities 2025

Description

WEC Energy Group is delighted to announce Internship Opportunities for students seeking a dynamic and enriching experience in the energy industry. As an intern, you will play an integral role in various projects and initiatives, contributing to the growth and success of our organization while gaining valuable skills and insights.

Responsibilities

- Support daily operations in different departments, including but not limited to, energy generation, transmission, distribution, and sustainability.
- Assist in data analysis, reporting, and project management related to energy efficiency and renewable energy initiatives.
- Collaborate with cross-functional teams on engineering projects, system upgrades, and infrastructure improvements.
- Participate in safety training and ensure compliance with industry regulations.
- Contribute to the development and execution of community outreach and education programs.
- Provide support in monitoring and analyzing energy consumption patterns.
- Engage with various teams to understand the full spectrum of energy operations.

Qualifications

- Currently enrolled in an undergraduate or graduate program with a focus on engineering, energy management, sustainability, or a related field.
- Strong academic record and a genuine interest in the energy industry.
- Excellent written and verbal communication skills.
- Proficient in Microsoft Office Suite and basic computer skills.
- Ability to work independently and collaboratively within a team.
- Detail-oriented with strong organizational and multitasking abilities.
- Demonstrated commitment to safety and understanding of energy industry regulations.

Experience

Previous coursework or experience in engineering, energy management, sustainability, or a related field is preferred but not required.

Skills

- Analytical skills for data interpretation and problem-solving.
- Strong interpersonal skills and the ability to work with diverse teams.
- Adaptability and a willingness to learn in a dynamic energy environment.
- Time management skills with the ability to meet deadlines.
- Knowledge of energy efficiency, renewable energy, or sustainability practices is advantageous.
